Cupertino, CA 95014

# What we are passionate about:

- **Connect communities** along the Stevens Creek Wildlife Corridor with a safe and beautiful route for biking, walking, and running.

- Extend the Stevens Creek Trail to **protect children and families** with **safe routes** to schools and parks.
- Encourage **healthy living**.
- **Save the environment** while **reducing traffic** congestion.

## About Stevens Creek Trail

### Today:

The trail is designed for recreational cyclists and pedestrians. It begins at the Bay in Shoreline Park in Mountain View and extends uninterrupted along Stevens Creek—under or over 101, Central Expressway, 85, and 237.

The trail provides access to the Stevens Creek natural habitat and hundreds of acres of nearby open space for hiking, jogging, cycling and other recreational activities.

The trail encourages safe bike commuting to Google, Intuit, and Microsoft.

The trail passes through Shoreline Park, McClellan Ranch Park, Blackberry Farm, Stevens Creek County Park, and the Monte Bello Open Space Preserve.

### Tomorrow:

Connect Mountain View, Los Altos, Sunnyvale and Cupertino south to Stevens Creek County Park and the Monte Bello Open Space Preserve.

Reduce our traffic and environmental footprint by reducing the number of cars on the road.
